

Dear Canterbury Park Homeowners,

The Association has placed ice melt buckets in strategic locations throughout the community to assist when temperatures drop and ice forms on surfaces, whether it be steps, walkways or asphalt in the north facing areas or other hard surfaces that are the responsibility of the Association. If you use the ice melt please make sure to place the scoop inside and place lid back on to protect the product for future users. Thank you .

TIPS FOR ICY SNOWY CONDITIONS

- Concentrate on your walking and take small steps. Walking at a slower pace than normal increases your traction and can reduce your chances of falling.
- Don't rush. Move at a speed that feels comfortable and remember to shorten your stride. Give yourself lots of time to get where you are going.
- Don't carry a heavy backpack or bag as this will make you unstable by altering your balance.
- Keep one hand free for balance.
- Use handrails when available.
- Wear good footwear.

REMEMBER Because Colorado is known for warmer temperatures during the day, followed by freezing temperatures at night, ice may develop despite the snow removal efforts. Please be extra cautious during the colder winter months when venturing outdoors in the snow and ice.
